

Amendment to School Land Trust Plan

With additional fundraising money, we have enough to put towards an additional Chromelab. In order to do this, we need to move money around again. The SCC voted by email on April 17 to approve the following changes:

We estimate that we will have about \$7,000 left in our aide account. We'd like to move \$6,000 into our equipment account for the lab.

We estimate that we will have about \$3,600 left in our substitute account. We'd like to move \$3,000 into our equipment account for the lab.

We estimate that we will have \$5,600 left in our contracted services account. We'd like to move \$2,000 into our equipment account for the lab.

Somehow we have overspent our supply account by \$3,200 (I am not sure how that happened. We've been careful!) so we'd like to move \$3,200 from contracted services into supplies.
