Can You Hear Me Now?

How to communicate with your professional teams about
your concerns and your child's needs.

Physicians, educators, therapists, and specialists all have unique styles of communication that you can learn about to add your voice to the conversation. We will talk about medical concerns, IEP and 504 accommodations, and how what happens at school affects you at home and vice versa. We will also talk about how to bring your concerns to the table in discussions so that the team or individual providers can agree on a course of action to benefit your child and your family.

Presenter: Terisa Gabrielsen, PhD, NCSP is an Assistant Professor of School Psychology at BYU.

Open to all parents who have a student who is struggling, on a Section 504 Plan or an IEP Plan.
Childcare is NOT provided.
