

I am Samantha Keetch. I was born and raised in Pleasant Grove and graduated from Utah Valley University. I have been teaching for one year and am so excited to join North Point Elementary in the fall as the Computer Specialist. I have been married to my high school sweetheart for 3 years now and we have loved every second. I love Dr. Pepper, brownies, and playing games with my family! I am passionate about helping my students learn relevant skills that will help them find success throughout their lives.
