

# Family Safety Night: Internet Safeguards and School Lockdown Protocol

**WHAT:** Internet and other Electronic Device Safety  
Lockdown Protocol and Procedures, Lone Peak Cluster Schools

**WHO:** Jay McFarland, KSL "Browsers" Talk Show Host  
Sergeant Jamey Brooks, Lone Peak Police Department

**WHEN:** February 25 6:30-8:00

**WHERE:** Lone Peak High School Auditorium

*You are invited to join us for an evening of pertinent information concerning how to assist in the electronic and physical safety of our cherished students in the Lone Peak Cluster schools.*

- Formulate questions you are concerned about pertaining to the safe family use of electronic devices and email them to your school administrators ahead of time so that Jay can have ready answers for you at the forum.

Jay McFarland is a talk show host, author, and mobile app developer. He started his talk radio career 15 years ago and is currently a co-host on a show called "The Browsers" on KSL Newsradio in Salt Lake City, Utah. This show focuses on the latest in technology news and scientific innovations. Over the past several years Jay has developed and published more than 100 mobile apps. His work can be found in every major app store and for several platforms including iOS, Mac, Android, and Windows 8. He has become an expert on how to use electronic devices safely in the family setting. Jay is married and has 4 beautiful children.

Sergeant Jamey Brooks is a member of the Lone Peak police force. With school shootings across the nation on the rise, he recognized the urgency for an emergency plan to be in place for our schools before the need actually arose. He developed a professional protocol for procedures to address that need and continues to refine the process. When the shooting "hoax" crisis at Pleasant Grove High School arose in December, The Pleasant Grove Police department called upon Sgt. Brooks to come to implement his plan to ensure the students' optimum safety, evacuation and releasing to parents. All parents will want to hear how their students will be protected and what they will need to do should such a crisis arise at their school.
